< **Research project on Small Tea Plantations in Udalguri District of BTAD, Assam** >

Dear Professor Kar,

Following up our previous cooperation in supervising doctoral candidates, I am glad to inform you that we would like to support a suitable Bodo candidate under a collaborative research project on Small Tea Plantations in Udalguri District of BTAD, Assam. We would be honoured if you could help select a preferably female candidate - academically suitable from BTAD with post-graduate degree in Geography – who would be involved in our project and remunerated for the funding period, which might be extended due to the prevailing Covid-19 crisis beyond the initially envisaged three years.

Thank you for your valuable support and I am looking forward to your response.

Yours sincerely,

Prof. Dr. H. Kreutzmann
