FROM THE DESK OF THE VICE CHANCELLOR

I cordially welcome the young aspiring students to Gauhati University. This premier institution has successfully completed long 73 years of existence. I am taking responsibility to ensure a quality of education and experience which enables students to apply the morals, skills, and rational command they have acquired at GU in their future lives and careers. I believe, this can be achieved through a commitment to the personal education of each student.

The objective of our work plan is to expand the University into an Academic Tourist Destination. Designed activities are underway to create a vibrant academic ecosystem with contemporary as well as futuristic curriculum, and secure teaching and learning situation. We will monitor progress against our priorities, commitments, and plans using relevant performance indicators, standards, and goals. Through this we will maintain focus on the strategic plan, ensuring that it continues to meet academic needs, enables us to respond to the external environment.

I feel that the regular activities that we have to perform to run the University smoothly are full of challenges. Personally, I realize the problems of GU. I am planning to address them in attainable and planned way. I believe that sincerity, inquisitiveness, hard work and positive thinking will give us energy and method to tackle challenging situations.

We have potential and scope for excellence. It is urgent to identify appropriate constructive steps for incorporation and support of various components of the University for a Perceptible Performance. An institution has to express itself up to the fullest possible height for commended recognition. To achieve recognition as centre of excellence we have to demonstrate our quality and distinction in academics, research, innovation and outreach programmes. We are designing policy and work plan to achieve this. It is a continuous progressive process. Participation and support of the all the stakeholders of the university is essential for accomplishment. Recently the process is on to develop a comfortable social ecosystem in the university to accelerate encouraging work culture.

Improvement of teaching and research infrastructure is an incessant procedure in Gauhati University. Syllabus updating process in GU is a regular mechanism. We have introduced CBCS with new syllabus in all level. Our syllabi are contemporary and need based. We have considerable research credentials in science, humanities, literature, social science and other interdisciplinary areas. GU has created significant amount of contemporary scientific research infrastructure and we are taking various measures to accelerate the process. New initiatives are being implemented to step up and encourage meaningful research in humanities and social science.

We encourage sports and other extracurricular activities among students. We have several defined open programs like college week, university week and youth festival. Sports facilities are being created in the university and in the affiliated colleges. We have a separate directorate to identify sport opportunities and to promote sport activities. We are open to accept suggestion and guidance from the experts and philanthropists. Due to recent technology driven changes in business analytics, transformation in the industry setup and uses of high-end R&D inputs, the human resource requirement pattern in the industries is facing a huge change. We are aware about that. We are exploring the possibilities to ensure maximum industry-academia relations and putting effort to create employable human resources.

GU is giving utmost importance and priority in handling the work of the students. We are taking initiative for augmentation of contemporary hostel facilities for students. I am aware and careful for smooth running of the services for the students. We have good work culture and understanding to the demand of the young minds, we practise cordiality, patience and timely response in the management of student matters.

Long Live Gauhati University

VICE CHANCELLOR

Prof. (Dr.) Pratap Jyoti Handique

A FLIP THROUGH ITS GOLDEN PAGES

Gauhati University, the oldest and largest University in the North East India, was established in the year 1948. The University came to existence through the Gauhati University Act, 1947 passed by the State Legislature of Assam on 15 October, 1947. It is the product of the collective dream of visionaries like Gopinath Bardoloi, Krishna Kanta Handique who prudently visualised the importance of institutes of higher education in the region. It was also the untiring efforts of Fakaruddin Ali Ahmed, Madhab Chandra Bezbaruah, Dr. Bhubaneswar Barua and others that contributed significantly to the establishment of Gauhati University.

The University started functioning from Cotton College and was shifted to the present campus in 1955–56. It had 18 affiliated colleges and eight Post Graduate Departments at the time of its establishment. At present there are more than 350 affiliated colleges offering undergraduate and post graduate courses in total of 7 Faculties – Arts, Science, Commerce & Management, Law, Medicine & Allied Health Sciences, Engineering and Technology. The University has forty-two Post Graduate Departments, an Institute of Distance and Open Learning (IDOL), an Institute of Science and Technology and a constituent Law College in the main campus.

The University campus is situated at the western fringe of Guwahati, about 15 kilometers from the city centre with the mighty Brahmaputra to the North. It has a sprawling, scenic and serene campus and is entirely self-contained, with Markets, a hospital, Banks, a Post office, sports facilities etc. The University has an impressive academic infrastructure including well-equipped laboratories, one central and departmental libraries and computer facilities, a Botanical Garden, a Bio Diversity Park, an Observatory etc. The K.K. Handique Central Library has been recognized as a Manuscript resource and a conservation centre by the Government of India. The University has capacity building centres such as the Career Counseling and Guidance Centre, the Pre-Examination Training Centre and the Women's Studies Research Centre that contribute to the overall development of the students.

The University has introduced choice-based credit system which is a student-friendly system where students get the opportunity of opting for courses according to their interests and needs. The system gives the students a competitive edge in the national and global Market. A ten-point grading scale is in place to standardize evaluation with respect to international benchmarks.

VISION & MISSION

GAUHATI UNIVERSITY VISION

To perform a transformative role for the region and its people, foster a spirit of inquiry, articulate global human, social and scientific concerns from its strong base in the region, set ethical standards in thinking and practice and enable the making of responsible citizen and compassionate and sensitive human beings.

MISSION

M1. Towards Academic Excellence

To provide quality teaching and a learning environment that takes account of changing student needs and expectations, incorporate global developments in all fields into its curricula, conduct cutting edge research through innovation and collaboration across all borders.

M2. To Widen Horizon of Institutional Activity

To extend its activities to address environmental, social and cultural concerns in the region, and promote free inquiry and life-long learning.

M3. To Empower and Competent Stakeholders

To empower stakeholders of the university and its affiliated colleges through capacity development, augmentation of skills and entrepreneurship, provide access to knowledge, extend academic and administrative assistance and enable employability.

M4. To Improve Support-Structure

To improve existing academic and administrative resources and enhance physical and technological infrastructure for the effective realisation of the University's vision.
