They have to conduct test series for every chapter that they taught us. They should make us understand the way we want to understand.

Classes need to take through powerpoint presentation always which will be followed by discussion and question answer session. There is an urgent need to update the research scholars with modern techniques regarding the writing of research paper

More Field work program should be allowed

Teacher should not do any partiality to student on behalf of their marks. Every student should be treated in an equal manner. Teacher conduct seminar programmes that's a nice initiative by the department which helps us a lot to interact with eminent scholars.

Counseling should be there.

We need more placements and career counseling.
