Vivek Menon
Samraat Pawar
Anwaruddin Choudhary
Nandini Rajamani
AC Williams
AJT John Singh
Mewa Singh
DK Sharma
PC Bhattacharjee
MC Malakkar
Dharani Boro

The department of Science and Technology invites participation by young investigators working in Universities, Institutes, NGO's and other agencies from the Northeastern region of India in a workshop relating to wild life in North east. The main aim is to create awareness about wildlife research with themes specific to the north-east and will include a brief introduction to research methodology for selected themes. An additional objective is to generate fundable projects and assist those who are interested to interact with experts to develop new projects.

Participants will be required to prepare either posters detailing intended research or prepare full research proposals as advised. These will be discussed and finalized during the workshop and some selected for submission to DST for consideration. The topics for discussion will include but not be restricted to: elephant-human conflict; population restoration; birds; herps; small carinvores; habitat fragmentation; grasslands; gliding and flying mammals and statistical tools.

Those desirous of participating should apply with a brief cv, details of previous research carried out, if any, and future plans for research in North Eastern region in a short statement of purpose.

Applications should reach :

Either Prof. D.K. Sharma, Head of Zoology,
(e-mail : dksgu@yahoo.co.uk)
Or Prof. U.C. Goswami, Department of Zoology,
(e-mail : ucgoswami@rediffmail.com)
Gauhati University, Gopinath Bordoloi Nagar,
Guwahati 781 014, ASSAM.

On or before 20th July, 2009

Venue: Gauhati University
Dates: 22 – 25 October 2009
