Remote sensing is the acquisition of information about an object or phenomenon without making physical contact with the object in contrast to on-site observation. Remote sensing is used in numerous fields, including geography, land surveying, weather forecasting and meteorology. It also applications in military, commercial, economic planning etc. The workshop will have interactive sessions on the following aspects –

- Basic theory of remote sensing
- Instrumentation involved
- signal processing applications related to remote sensing

Registration fee (Lunch & Kits):
Rs. 500/- for students, Rs.1000/- for research scholars & Rs. 2000/- for others

- Registration fee should be paid by cash to the Program Coordinator along with duly filled up application form.
- A recommendation from the head of institution/department is necessary for the participants
- Spot registration is permitted for participants coming from outside Assam.

Resource persons

- Prof. P. K. Nanda, SoA University, Bhubaneswar
- Prof. Alope Datta, NIT Shillong
- Prof. A.Mitra, Kolkata University
Dr. Saurabh Das, ISI, Kolkata
- Prof. Ashish Ghosh, ISI, Kolkata
- Prof. Anup Saikia, GU, Assam
- Dr. K. K. Sarma, GU, Assam

Venue:

Seminar Hall, Department of Electronics and Communication Technology, Gauhati University, Guwahati, Assam

Important Dates

- Last date for receiving application: 30th April 2017
- Date of Commencement: 15th May, 2017

Eligible Participants

- PG students of Electronics / Instrumentation / Physics
- Research Scholars
- Young Faculty members

Accommodation

No accommodation for local participants, but participants coming from outside Assam will be given accommodation on prior request and self payment basis.
