

One week Workshop on
“Advanced Petrography”

26th of June to 1st of July, 2018

Intensive theory classes on

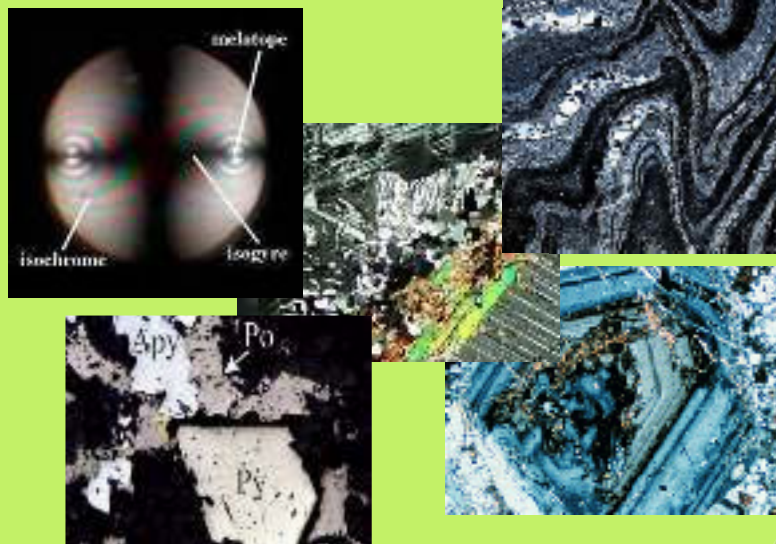

Principles of transmitted and reflected light microscopy

Fundamentals of Mineralogy

Rock forming and Ore minerals

Reaction texture

Microstructure and deformation

Intensive hands-on

Mineral identification

Optic sign determinations

Microstructure interpretation

Ore texture interpretation

Understanding reaction assemblages

Organized by

Department of Geological Sciences, Gauhati University

Who can apply

- Faculty members/Ph.D. students from colleges and Universities who are involved in teaching various petrology courses (Igneous/Metamorphic/Ore/Structural geology) as per their course curriculum or those actively engaged in petrological research.

Number of participants: limited to 25

How to apply

- Application in plain paper giving details of education qualification, present teaching assignment/research area and a statement on how the proposed training will be useful to the candidate should be sent by e-mail to the coordinator by 10th of June, 2018.

Dr. Pranjit Hazarika

Course coordinator, “**Advanced Petrography**” workshop
